

IPF PRODUCES THE MOVIE FOR THE 2007 WORLD METEOROLOGICAL DAY

The IPF was commissioned by the World Meteorological Organisation (WMO) to create a movie for the [2007 World Meteorological Day](#). The theme of this year was: "Polar meteorology: Understanding global impacts".

In partnership with [Michel de Wouters Productions](#), David Gladsteen and Olivier Malvoisin, the IPF created a documentary presented during the 23rd of March WMO Meeting.

The movie is available in 6 languages (French, English, Spanish, Russian, Chinese and Arabic) and has been distributed to the WMO offices throughout the world.
